

BIOGRAPHICAL INFORMATION on Lynne Duddy

Lynne Duddy is a rare combination of right-brain and left-brain synergy. Lynne is a modern-day polymath, curious about all branches of human learning. She understands the big picture and knows how to connect the dots between the needs of business, technology, and people. But her real gift is translating those needs into something meaningful and actionable.

Lynne puts left-brain and right-brain skills on equal footing, motivating people of both minds to collaborate. And story is the common denominator for all of her work. Before discovering her passion as a storyteller, speaker, and performer, Lynne enjoyed a successful career in high-tech as a product engineer, writer, and information architect.

Lynne Duddy became a member of the National Speakers Association in 2008 and has been a member of the National Storytelling Network since 2003. Today, she continues her story work and applies those skills to all aspects of her life.
